

EMBARGO: NOON 8 APRIL 1971

**SURVEY OF SELECTED PRIVATE PENSION FUNDS**  
1969-70

Reference No. 5.25

This bulletin contains the results of a survey of separately constituted private pension funds operated by a number of large companies or groups of companies and relates to the year 1969-70.

COMPREHENSIVE SAMPLE SURVEYS

2. For 1955-56, 1960-61, 1961-62 and 1962-63, the Bureau conducted sample surveys of pension and retiring allowance schemes in private businesses subject to payroll tax, other than in rural industries, private domestic service, and certain businesses such as accountants, trade associations, consultant engineers, etc. Commonwealth Government airlines and banks were included where they had established their own funds separately from the Commonwealth superannuation funds, but statutory coal miners' pension funds were excluded. Details were asked for three types of pension and retiring allowance schemes. They were (a) schemes operated through separately constituted funds, (b) schemes operated through life insurance offices, and (c) direct payments of pensions and retiring allowances.

3. The results of the 1955-56 survey were published in Finance Bulletin No. 47, Part I, and the 1960-61, 1961-62 and 1962-63 survey results were published in Insurance and Other Private Finance Bulletin No. 2.

SMALL SURVEYS OF SELECTED FUNDS

4. For the years 1956-57 to 1958-59, 1963-64 and 1964-65, information was collected from a small number of the larger separately constituted funds. Although only a small number of funds was included in these collections they accounted, in 1962-63, for about 27 per cent of the income, 28 per cent of the expenditure and about 34 per cent of the total assets of the separately constituted funds covered by the more comprehensive sample survey conducted for 1962-63.

5. Information for these selected funds for the years 1955-56, 1960-61, 1961-62 and 1962-63 was extracted from the returns obtained in the sample surveys conducted for those years and results of the survey for 1964-65, together with comparative figures for previous years, were published in April 1966 in a mimeographed bulletin.

ENLARGED SURVEYS OF SELECTED FUNDS

6. In order to improve the coverage of the published statistics of private pension funds, returns were collected from some additional funds for 1964-65 and tabulated with the returns from the survey for 1964-65 referred to above. The separately constituted private pension funds included in the enlarged 1964-65 survey together accounted, in 1962-63, for about 72 per cent of the total contributions, 71 per cent of the income, 68 per cent of the expenditure and 77 per cent of the assets of the separately constituted funds covered by the more comprehensive sample survey conducted for 1962-63.

7. The results of the enlarged 1964-65 survey were published in September 1966 in a mimeographed bulletin.

8. Further surveys, relating to the same funds that were included in the enlarged 1964-65 survey of selected private pension funds, have been made in respect

of each year from 1965-66 to 1969-70 inclusive. The results of the 1969-70 survey are published in this bulletin together with details of the 1965-66, 1966-67, 1967-68 and 1968-69 surveys for comparison.

9. Since the Survey of Selected Private Pension Funds for 1969-70 is not a representative sample, it is not known to what extent their share of the whole field has changed since the 1962-63 survey; nor is the pattern of income, expenditure and asset distribution of the large funds included in this survey necessarily representative of the whole field.

10. The statistics do not relate to uniform accounting periods but to the financial years of the funds which ended in the years shown.

11. Any discrepancies between totals and sums of components in tables are due to rounding.
